

Excalibur

1,500mg.

0.0% THC FREE

Our 1,500mg. sublingual Active Driven Terpenes, 0.0% THC FREE maintains over 40 terpenes, lipids, waxes, flavonoids, omegas, vitamins, and minerals. All of these ingredients are indigenous to the plant. Our nano-emulsified oil particulates are so small (average size of 25 nanometers) they are believed to be more bioavailable. Bocannaco's oil is produced with state-of-the-art processing equipment, currently patent pending. This reduces the damaging effects caused by other standardized equipment. We do not use harsh chemicals that may not only damage the human body, they damage the plant itself. We do not use high temperatures for this very reason. Our goal is to ensure integrity of the end product. The airless pump bottle minimizes contamination and oxidation. QR codes and lot numbers on the bottles are crucial so as to allow the end user to see exactly what they're taking into their bodies.
